NA NA : Film Remakes before purchasing it in order to gage whether or not it would be worth my time, and all praised Film Remakes:

0 of 0 people found the following review helpful. CONCISE AND ENCOMPASSING By shoe tragic Verevis' book is a good introduction to the various theories and categories of film remaking. This is a great book for those unfamiliar with the theoretical background and the various debates in film studies regarding adaptations and remakes. It is well divided into chapters that make up the various facets of film remaking such as the industrial, the textual and the

critical. I found this book extremely easy and pleasurable to read as Verevis also illustrates his arguments with a lot of examples. He obviously understands his subject matter well and is therefore clear, direct and explicit in his manner of presentation (unlike a lot of other dense, jargon filled material that makes an otherwise pleasurable subject unnecessarily 'academic'). If only other film theory books were so well written. 0 of 0 people found the following review helpful. Five Stars
By Paula Uruburui
item great. just s described.

This is the first book to provide a comprehensive and systematic account of the phenomenon of cinematic remaking. Drawing upon recent theories of genre and intertextuality, *Film Remakes* describes remaking as both an elastic concept and a complex situation, one enabled and limited by the interrelated roles and practices of industry, critics, and audiences. This approach to remaking is developed across three broad sections: the first deals with issues of production, including commerce and authors; the second considers genre, plots, and structures; and the third investigates issues of reception, including audiences and institutions.

About the Author
Constantine Verevis is Lecturer, School of Literary, Visual and Performance Studies, Monash University, Australia.
