From imusti : Film Theory Reader: Debates Arguments before purchasing it in order to gage whether or not it would be worth my time, and all praised Film Theory Reader: Debates Arguments:

2 of 2 people found the following review helpful. jam packed with dense but important theoryBy meltoidThis reader was used for a Film Theory class @ UC Berk. Really great compilation of important film theorists. If you read this, you have a good grasp on the arguments that are important. What is cool is that it takes you through themes in a way, like film as art, film spectatorship, etc. Furthermore, it pairs an original theorist with someone taking that theory and expanding it. We only used this in our class which shows that it has all the essentials and no supplements were needed (summer session class)

"An excellent collection of provocative and compelling debates, expertly and elegantly arranged. Essays new and old form a dynamic and accessible portrait of ideas foundational to contemporary thinking about film. This book is sure to inspire." Haidee Wasson, Concordia University, Montreal "Marc Furstenau retraces the most important issues in film theory, and makes them interact with the current debate on cinema and post-cinema. A historical legacy becomes a living source - and the site of a passionate debate." Francesco Casetti, Catholic University of Milan and Yale University. The Film Theory Reader brings together a range of key theoretical texts, organized thematically to emphasise the development of specific critical concepts and theoretical models in the field of film theory. Each section presents well-known or significant texts, which have introduced a particularly influential concept, followed by texts that have developed or extended the concept, or that have offered explicit critiques or arguments against the original model. The collection thus represents and reproduces the debates and arguments that have shaped the theoretical landscape of film studies, guiding the reader through the complex terrain of theoretical debate, and offering suggestions for further reading and research. An Introduction from the editor contextualises the essays and provides a logical guide to the book, clarifying the links between articles and tracing the development of key arguments. The notes to the Introduction include extensive references, for readers to explore and further their own studies, as they are guided through the history of debate in film theory.

"An excellent collection of provocative and compelling debates, expertly and elegantly arranged. Essays new and old form a dynamic and accessible portrait of ideas foundational to contemporary thinking about film. This book is sure to inspire." Haidee Wasson, Concordia University, Montreal "Marc Furstenau retraces the most important issues in film theory, and makes them interact with the current debate on cinema and post-cinema. A historical legacy becomes a living source - and the site of a passionate debate." Francesco Casetti, Catholic University of Milan and Yale University. About the Author Marc Furstenau is Assistant Professor of Film Studies at Carleton University, Canada. Recent publications include (ed. with Bruce Bennett and Adrian Mackenzie) *Cinema and Technology: Cultures, Theories, Practices* (2008), and he has also published on the topics of cinema and semiotics, film theory, the philosophical cinema of Terrence Malick and the photographic theory of Susan Sontag. His current research interests include film theory and film history; new digital media and documentary cinema.
