Susan Avallone : Film Writers Guide--1998: 7th Edition before purchasing it in order to gage whether or not it would be worth my time, and all praised Film Writers Guide--1998: 7th Edition:

2 of 4 people found the following review helpful. An excellent resource for screenwriter info, great interviewBy A CustomerThe Filmwriters Guide is not only an excellent reference--it lists not just produced movie credits but also development projects which is really cool for film geeks like me--but the interviews with experienced screenwriters are always entertaining and insightful. Working screenwriters talking honestly about their work and careers is hard to find but these interviews are always good.

The most complete reference book about writers of motion pictures and movies-of-the-week.
