From Brand: Wallflower Press : France on Film- Reflections on Popular French Culture before purchasing it in order to gage whether or not it would be worth my time, and all praised France on Film- Reflections on Popular French Culture:

Through an analysis of films as diverse as Jean de Florette, Ma Vie en rose, and Nikita, this collection of new essays is

a comprehensive introduction to the concerns and styles that characterize contemporary popular French film. Set within an economic, political, and social context, *France on Film* reconsiders the direction French cinema is taking today, bringing into focus critical questions concerning wide-ranging notions of French culture, identity, and nationhood. Examining questions of popular cinema as opposed to art cinema, this book also seeks to (re)present films that have been widely popular in France and internationally and to thus challenge the traditional art-house view of contemporary French cinema. It also includes a comprehensive filmography and statistics detailing the current state of the French film industry.

About the Author Lucy Mazdon is lecturer in the school of modern languages, University of Southampton, UK. She has taught widely on film and television studies and is the author of *Encore Hollywood*.
