**Gerald R Barrett : From fiction to film: Conrad Aiken's Silent snow, secret snow (The Dickenson literature and film series)** before purchasing it in order to gage whether or not it would be worth my time, and all praised From fiction to film: Conrad Aiken's Silent snow, secret snow (The Dickenson literature and film series):

0 of 0 people found the following review helpful. Five StarsBy Cosmo TopperOne of the most beautiful and haunting short stories I have ever read.4 of 4 people found the following review helpful. Excellent!By Bryan StephensExcellent portrayal of the descent into mental illness. Here is a quiet young boy whose mind and life are taken over by a looming thought disorder full of hallucinations and delusions. The way the story is written the mental illness is almost seductive. The illness is presented as a very intimate, private world outside of everyday reality. As the story progresses we see the boy gradually retreat more and more towards this new world until finally everyday reality is left behind. This story is very beautifully written and is quiet memorable. What is more interesting is that it is a story of a boy with mental illness told from the perspective of the victim. The story takes us into his mind and reveals to us how alluring, inviting and even beautiful mental illness can be to the person suffering from it in some cases. I don't believe that is story represents many cases of actual mental illness as most people who go through these types of symptoms are many times in trauma and usually tormented by their symptoms. That being said this is quite a work of art. Excellent!, Excellent!
