Mark Lando : Game Plan for Signers before purchasing it in order to gage whether or not it would be worth my time, and all praised Game Plan for Signers:

The book itself is an updated data bank of what's going on now at certain tracks. In 10 years this book will be outdated and not worth its salt. Good angles--but will it get you signers? Most likely not.0 of 0 people found the following review helpful. A privilege to recommend!By BRYAN

STONER....a stimulating new perspective, brilliantly original, superbly written, an excellent resource. Be prepared to take notes!

Mark Lando's unique perspective on thoroughbred body language has given me an ability to separate contenders. It's an edge that I didn't have before, which immediately led to profitable results." - Charles "Chip" Reed, One of Maryland's leading stakes winning owners and breeders and a Director of the Maryland Thoroughbred Horseman's Association. The primary focus of this book is to show the player how to get an edge in this difficult game. Doing what everyone else is doing erodes value and dooms the bettor to failure. Lando's "Game Plan" using angles, tells and strategies affords the handicapper in-the-now ability to garner large, exciting pay offs. The Addendum showing the results of his stratagem is original. Lando's approach eschews the usual salvo of tedious charts and graphs making "Game Plan for Signers" an easy-to-understand archetypal exercise based on common sense and thoroughbred psyche.. MARK LANDO, a journalism graduate of American University, an Army Veteran and lifelong horse lover and handicapper, fell in love with horses at the age of five at ranch camp in Columbia County, New York. Lando worked in the periodical industry for over 40 years as President and CEO of several companies. He also owned book stores in Pennsylvania and New York. Lando has owned and raced thoroughbreds since college and recently has managed horseracing partnerships. He divides his time between York, Pennsylvania and South Florida.
