experiences are surprising and often comical. His encounters with security for various tournaments is described similarly to those that Blackjack players encounter when plying their trade - neither is doing anything illegal, but this does not stop the harassment or countermeasures employed by tennis security (or casino security). Although the book is not geared towards pro gamblers, the little he says on topic is accurate. If you are considering betting tennis in-game, this is a good read on why you have no prayer to win long-term without a scout court-siding. 0 of 0 people found the following review helpful. ... recommendable book for those curious and adventurous people who enjoy reading about different parts of the world By Tonas M. Highly recommendable book for those curious and adventurous people who enjoy reading about different parts of the world, but also for those business-oriented minds, since it exemplifies an innovative way of making a profit like nobody else had thought before. The narrative of events is well structured; the characteristics of places and people are really well described with attention to details using vast vocabulary. It's one of those books you just can't put down. And in the end, the adventures of the author will just make you want to pack your bags and go out there to experience the world! 0 of 0 people found the following review helpful. But it makes for a great read and I recommend it to anyone who doesn't mind a flutter or those who just want to know what others get up to in the world of sports.

Inside the secret world of tennis court-siding. Brad Hutchins has been living a young bloke's dream: getting paid to travel the world and watch sport. Sitting court-side on the pro tennis circuit, he uses his phone to transmit results to a gambling syndicate, taking advantage of the time delay in TV broadcasts to beat other online punters to the big pay-offs. His stories from life on the road capture the adventures and mishaps that come with following the world's best tennis players and partying in a new country every week. But like card counters in casinos, court-siders are despised by the tennis establishment. The more time Brad spends at tournaments, the harder it becomes for him to evade the security guards who are hell-bent on ejecting him from matches. The resulting cat-and-mouse chases will appeal to anyone who loves the roguish spirit of *The Wolf of Wall Street* or *Catch Me If You Can*.

'A terrific read, and not just another 'racket'. Hutchins shines!' - Paul Carter, author of *Don't Tell Mum I Work on the Rigs: She Thinks I'm a Piano Player in a Whorehouse*. About the Author Authors Bio, not available
