Mehhhhhhhhh!!!! Ok so the game was terrible, but for collectors like myself its still fun to collect everything gears. Great addition to my collection. Gave this review 4 out of 5 because the strategy guide is halfway decent compared to the game itself. The book is nice quality though and appears to be very durable. Very detailed illustrations and artwork. I got a great deal so I cant complain too much. Just wish epic games last gears title wasn't the biggest POS I ever anticipated playing.3 of 3 people found the following review helpful.
