**Piper Banks : Geek High** before purchasing it in order to gage whether or not it would be worth my time, and all praised Geek High:

1 of 1 people found the following review helpful. My review over geekBy Cleo OdusogaIt's was extremely interesting, with the waiting for who will be with who. The great vocabulary used made me want to ask of how she came up with it. I love this book!1 of 1 people found the following review helpful. goodBy lexit was a good book i wish i could read more not my fave book tho but def in the top 200 of 1 people found the following review helpful. Did Not Live Up To

ExpectationsBy Elle HinkleyOk, so I saw this book in Barnes Noble about a year ago and decided that I just HAD to read it. The back cover description introduced a plot not overused in the chick-lit genre! Naturally when I received a kindle and money for my birthday I bought and read this book. Let's just say that Geek High did not live up to my expectations. The plot was the basic loser becomes semi-popular and gets the super sweet guy. The only truly unique aspect of this book was that the protagonist went to a school for gifted students. This means that, technically, the kids who attended were mostly geeks if sent to regular school. The only good piece of this book is Miranda Bloom, the protagonist. She is very easy to relate to. Read it if you want to, but it would not be on the top of my to read shelf. 2.5 stars.

At this school, everyone's a geek. And Miranda Bloom still can't fit in... Miranda is a math genius with divorced parents, an evil stepmother, and no boyfriend in sight. She can't even fit in with the other geeks at the Nottingham Independent School for high-IQ students, because they actually have useful talents. Miranda, on the other hand, is known as "The Human Calculator," which doesn't amount to much when people have, you know, their own calculators. Then Miranda gets stuck planning the school's Snowflake Gala. And as she struggles to find a date and drum up some school spirit at Nottingham-aka "Geek High"-she finds that who you are means more than where you fit in.
