The best strategy of all is the 5 count. It does work, and will save you a lot of money earning more comps. Any time you can learn to have a lower risk with a higher payout is invaluable. I love he stories and the advice handed down by some of

the greatest crap players ever known. Special thanks to the Captain, for allowing somebody to document the facts and pass it on to The next generation I would be sharpshooters. 1 of 1 people found the following review helpful. Sharp Shooter By C. Bryson The book was used but showed very little damage! 0 of 0 people found the following review helpful. Good follow up book from " how to beat the craps out of the casino" By Tom Good follow up book but some redundancy from the book " how to beat the craps out of the casinos"

This is the book craps players have been waiting for! For the first time ever, the casino's worst nightmare, the amazing player known as Sharpshooter, reveals his secrets for getting the edge at craps how to control the dice when you shoot in order to reduce the appearance of certain numbers (the 7!) and increase the appearance of other numbers. If you learn Sharpshooter's methods of dice control or rhythmic rolling, craps becomes not only a beatable game but a money maker for the player!

About the Author Sharpshooter writes under a pen name because many casinos would be unhappy if they knew he employed his remarkable techniques at their tables. He is known among craps-playing aficionados as one of the greatest "dice controllers" or "rhythmic rollers" in the world. He is an engineer, grounded in math and physics, who knows his way around the casino as well as he knows his way around mathematical theorems.
