A fun and informative readBy Alan SesslerStill reading it, but I really enjoy the history, photos and ads from a wonderful time in live theatre I wish I had been around to witness. To find out they were still occurring in my childhood is sad. A lot of the information is repetitive, but that's because each performer's show largely borrowed from one another. I would have liked more information on how the tricks were carried out but this isn't really a book on magic. In any case, it's inspiring as to what these ghostmasters were capable of doing with such limited technology. Go radium!0 of 0 people found the following review helpful. The best book on midnight spookshows ever written!By C. TidwellYou'll read about the spook-meisters who drove this late-night phenomenon (and cash-cow) of yesteryear. Read about crooked theater owners and teenage hooligans, on-stage shenanigans and backstage horrors. What REALLY went on when the lights went out? Don't be left in the dark. Get this book!0 of 0 people found the following review helpful. Five StarsBy CustomerGreat product. Great service.

An history of the spook shows of the 1930's and 40's. "This is a book that makes me want to don a gorilla suit and rip apart a blonde with my bare claws. It's a true history of my artistic idols: the mad doctors and maniacal magicians who toured with live midnight fright shows, and scared the bejeezus out of hormone-pumped teenagers on dates. In my

opinion, an absolute must-read for horror and magic fans." --Teller of Penn Teller
