2 of 2 people found the following review helpful. Best of the Bunch By Tipper I recently bought 5 (more) Kakuro books as they are my favorite to solve. This was by far the best of the bunch. These are full page puzzles on good quality paper. They are not a snap to solve and take several minutes each due to their size. This is the level I enjoy most, a challenge without the frustration of obscure number combinations. Delighted to discover there are volumes 2 and 3 to look forward to! 2 of 2 people found the following review helpful. This is a GREAT puzzle book! By Kindness Pays These puzzles are SO big! They take a while to solve and that is just what I wanted! This is one of the best Kakuro books I have ever had and I have had dozens! 1 of 1 people found the following review helpful. Big puzzles that are still manageable and fun. By FTC Shopper Love the big puzzles--lots of hours of puzzling but not too hard. A beginner could learn a lot with these puzzles. They are still challenging enough to entertain the intermediate level

players.

Welcome to this fantastic collection of 100 GIANT kakuro puzzles, in a huge 20x20 grid size. These puzzles are great for challenging the grey matter as they require multiple skills to solve. Full instructions and handy solving clues are featured inside to help get your head around this challenging but brilliantly rewarding and fun puzzle. A good kakuro puzzle is one that has a unique solution (all of ours have one unique solution) that can be reached without guessing (again, pure logic and number skills are needed to solve our kakuro). This is the most important thing to state as if you ever get stuck, know that there is a logical method you can use to solve the puzzle and you never need to resort to guessing. All puzzle books are printed on very high quality paper making the puzzle experience all the more enjoyable. For other puzzle books, visit us at www.puzzle-book.co.uk
