**From Denise Gallo : Gioachino Rossini: A Research and Information Guide (Routledge Music Bibliographies)**  
before purchasing it in order to gauge whether or not it would be worth my time, and all praised Gioachino Rossini: A  
Research and Information Guide (Routledge Music Bibliographies):

3 of 25 people found the following review helpful. Pretentious, snobby and useless  
By Gregory Muir  
I've never even read the book but I have a friend who takes this woman's class. She is a typical academic, knows a lot about nothing. You would be well advised to find a book by an author who actually cares about music and not academic snobbery.

*Giochino Rossini: A Research and Information Guide* is designed as a tool for those beginning to study the life and works of Gioachino Rossini as well as for those who wish to explore beyond the established biographies and commentaries. The first edition was published in 2001, and represented a survey of some 878 publications relating to the composer's life and works. The second edition is revised and updated to include the more than 150 books and articles written in the field of Rossini studies since then. Contents range from sources published in the early decades of the nineteenth century to works currently in progress. General subject areas include Rossini's biography, historical and analytical studies of his operatic and non-operatic compositions, his personal and professional associations, and the reassessment of his role in the development of nineteenth-century music.

About the Author  
Denise Gallo is Senior Music Specialist with the Library of Congress.
