**Janelle Randazza : Go Tweet Yourself: 365 Reasons Why Twitter, Facebook, MySpace, and Other Social Networking Sites Suck** before purchasing it in order to gage whether or not it would be worth my time, and all praised Go Tweet Yourself: 365 Reasons Why Twitter, Facebook, MySpace, and Other Social Networking Sites Suck:

1 of 1 people found the following review helpful. Crushingly funny!By AmerTravGive yourself a laugh and buy this book "Go Tweet Yourself". It's just fun and certainly timely in this Twitter-verse that we find ourselves.2 of 2 people found the following review helpful. Someday we'll say we were reading her stuff way back when!By Alexis LambertShe's hilarious and witty and well, she's got more than one valid point. This book is a great read.3 of 3 people found the following review helpful. Great for parents and teensBy KnoxmomOnce you stop laughing, share it with your teens. A great way to connect with your kids and share some relevant info in a fun way.

Flip Twitter the bird.Tell Facebook to f#@% off.Lose it on LinkedIn.Somewhere between the advent of Facebook and

launching Twitter to the masses, the Internet betrayed us. It allowed pages to be viewed by job interviewers, newsfeeds to be flooded by Aunt Julie, and for constant tweets about what color socks that random girl from the study group is going to wear today. This book is the hilarious reply all that says: enough is enough. We dont want to see the pictures from your business trip to Omaha. We dont want a page-by-page account of whats going on in Twilight. We definitely dont want a virtual drink! When you cant fix the problem, fix the blame. And since theres no way in 2.0-hell that you can put an end to the bastardization of the Book, you may as well have a good laugh while pointing the finger at those who ruined their online experience.
