Robert Marrero : Godzilla - King of the Movie Monsters: An Illustrated Guide to Japanese Monster Movies

before purchasing it in order to gage whether or not it would be worth my time, and all praised Godzilla - King of the Movie Monsters: An Illustrated Guide to Japanese Monster Movies:

This guy's a Godzilla FAN????????!!!!!!By David A. SalvittiThis book is a total mess.....there are many typos, monsters are mis-labeled (Angurus?) and many "facts" are incorrect. This guy rips every Godzilla movie except the original '54 (1st) movie and the 90s movies. For example, in Godzilla vs the Thing ('64), Godzilla rises from the sea? What movie is he watching? He says in Son of Godzilla ('67) "the action is non-existent". Really? The Kamakuras and Kumonga interacting with Godzilla and Minya throughout the movie was exciting to me. And in Destroy All Monsters ('68), he says it's a "mix-mash of edited footage from previous Toho pictures that we had already seen. Boring" Say what?? Is he watching Godzilla's Revenge instead in reference to the stock footage?? He also says it "suffers harshly from inept scripting, vapid dubbing, and boring destruction scenes that are actually recycled". This guy calls himself a Godzilla fan?? Wow, i'm just glad i only spent \$3.00 on this garbage. Save your money! Don't buy this!1 of 4 people found the following review helpful. Kids will love it!By Veronica YoungMy son devoured this book, scanning each page over and over. As long time Godzilla fans, to find any book about the Monster was a delight. Concidering that Godzilla mostly appeals to young boys, or old boys wishing they

were still young, we found the book a nice addition to our library. The only thing we did not like was that the photos were all black and white, but there were so many of them it helps make up for it. It is a full size book, and provides a write up of the all the Monster's movies up till publication. It also provides a great chronological filmography of non-Godzilla giant monster film from Japan and Korea. The appendix also provides the alternate title for the films, which often make locating a film easier. For a book about a moster, I htink it is great. Many fans may wish for someting Hemingway may write, but get real, it is just for fun and this is a fun book

As the premiere book to list and review all Godzilla movies, this book lists, reviews and critiques each and every Godzilla movie ever made. Each listing is accompanied by cast and credit information, alternative titles, availability on video, and production notes.
