Ferruccio Busoni : Goldberg Variations and Other Bach Transcriptions for Solo Piano (Dover Music for Piano)
before purchasing it in order to gauge whether or not it would be worth my time, and all praised Goldberg Variations and Other Bach Transcriptions for Solo Piano (Dover Music for Piano):

This book has some of the best print quality I have ever seen By CGIsackson Although I have several pdf copies of the works in this book, I had hoped to finally have a printed version to make practicing easier. This book has some of the best print quality I have ever seen. The notes are perfectly sized and extremely acute. There is no distracting fingering in the book. The paper is thick and it allows the pages to lie flat even though there are 215 pages in the book. The book contains the Aria and 30 Goldberg Variations along with

several other well known pieces, most notably, the Chromatic Fantasy and Fugue BWV 903. A definite must-have for the pianist interested in having a great copy of the Goldberg Variations. 0 of 0 people found the following review helpful. Five Stars

This book is in very good condition. I appreciate it.

This volume collects four of the most important keyboard masterpieces by Johann Sebastian Bach: the "Goldberg" Variations, Chromatic Fantasy and Fugue, Fantasia Contrappuntistica, and Concerto for Piano and Orchestra in D Minor in arrangements by celebrated pianist and composer Ferruccio Busoni for his 1919 Breitkopf & Hrtel edition. Additional features include Busoni's original system of keyboard notation, demonstrated vis--vis the Chromatic Fantasy. An important composer in his own right, Busoni ranks among history's most celebrated pianists. His controversial 25-volume edition of transcriptions of Bach's keyboard music includes side-by-side discussions of Bach's music with arrangements by Busoni and his pupil, Egon Petri. Adapted for the modern resources of the grand piano, the transcriptions include plentiful doublings of voices for higher and lower ranges of the keyboard that did not exist on Bach's clavier, in addition to analytical re-shapings of the music itself. This volume marks a significant collection of rarities that merit greater attention among performers and listeners.

About the Author
Ferruccio Busoni (1866-1924) was one of history's most celebrated pianists and a composer of note. A controversial transcriber of J. S. Bach's keyboard works, he prepared a 25-volume edition of Bach's music with side-by-side commentaries and piano arrangements of his own and those of his pupil, Egon Petri.
