Elizabeth Hollinger, David Cassady, Debra McBride : Golden Sun Golden Sun 2: The Lost Age (Prima's Official Strategy Guide) (v. 1 2) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Golden Sun Golden Sun 2: The Lost Age (Prima's Official Strategy Guide) (v. 1 2):

7 of 7 people found the following review helpful. Great for its price. By Carmilla With this guide you are paying \$5 for each game and you just can't beat that price, especially when you consider how massive each game is. But the saying 'you get what you pay for' holds true on this guide. The secret dungeon, Crossbone Island, of the first game is covered nowhere in this guide. Neither is the secret dungeon of the second game. What gives? And a world map, which is standard fare for a massive rpg, is non-existent too. It does give directions in text but these can be extremely vague in some parts. Also, there is no bestiary in the guide. Some of the rarest and best items in the game can only be gotten from enemies and this info is sorely missing with no bestiary. And the item database is pretty expansive but again, the

best items in the game are missing. Though I have to give this guide credit. If you're stuck on a puzzle you can find the solutions in this guide in seconds. The solutions all have perfect pictures to guide you in the right direction. And last but not least, finding every single djinn in the game is made a snap with this guide. Every djinn has a bold box of info with a title that says DJINN ALERT. This makes it extremely easy to flip through the guide to find any djinn you missed and makes finding them a piece of cake. All in all this is a great guide for its 2-in-1 price. So while it isn't the best guide for those rare item hunters, it is great for the players that like to solve the game on their own and only use guides as a 'last resort' or to help on a tricky puzzle. 0 of 0 people found the following review helpful. Golden Sun Player's Guide By David Jacobson This guide is a huge help. There is so much to do in Golden Sun and Golden Sun 2. Without the guide you could easily get lost. There are some online guides but some of them aren't very good and I really like having a hard copy right in front of me when I play. The only thing that I don't like is that the guide tells you where you're supposed to go next but often it doesn't tell you what direction to head in when going to the next area. To overcome that pay attention to what people tell you when you talk to them in the game. Other than that, this player's guide is a must for anyone who really wants to do it all in these two great games. 0 of 0 people found the following review helpful. Five Stars By kenny the book is good to play the game

In a dying world, an epic adventure is born Thorough walkthroughs for both Golden Sun™ and Golden Sun™: The Lost Age Proven strategy to defeat all bosses Tips on using weapons, armor, and equipment Hints on mastering Psynergy Locations of all Djinn All sidequests revealed
