This Golf Word Scrambles book is great for both golf lovers and word puzzle enthusiasts. It makes a nice gift, too. There are 101 word scramble puzzles; each puzzle consists of 10 golf-related words or phrases, like sand trap, nine iron, Tiger Woods, or St. Andrews. All 10 words from each puzzle are related - for example, they might all be common golf phrases, golf equipment, professional golfers, or famous golf courses. Knowing that the words in each puzzle are related may help you unscramble any words or phrases that you don't see right away. You can check all of

your answers with the solutions in the back of the book. The puzzle pages are decorated with golf holes. Here is a sample: (1) N A S D D E W E G (2) U P T E R T (3) V I R D E R. Answers: (1) sand wedge (2) putter (3) driver.

Here are some of the things customers like about this series. Plenty of puzzles. Most of the word scramble books in this series have over 500 word scrambles. That's a lot of puzzle fun to enjoy. Hints. Each book has not only an answer key, but also a separate section of hints with the first letter of each answer. Many customers appreciate this handy feature. Sometimes, the answer is a word you know, but you're just not thinking of it. The hint often helps you figure it out without completely giving it away. Themes. Each page is a puzzle with several related words. The final word scramble is the theme of the puzzle. Knowing that the words are related helps to figure out the harder puzzles. Unique. Several of the word scramble puzzles are unique, such as VERBAL REACTIONS, where all the words are made from symbols from the periodic table (like GeNIUS and BRaInIAC) and the puzzles look like chemical reactions. You don't need to know any science to solve these puzzles though. It's pure word scramble fun for word puzzle enthusiasts.
