**Original Radio Broadcasts : Green Hornet (Classic Radio)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Green Hornet (Classic Radio):

The Returns of Oliver Perry By 31st anniversary The three episodes featuring the Green Hornets last recurring enemy alone are worth the price of this collection. Unlike other shows, the Green Hornet referred to previous episodes by working their titles into the dialogue which is great for todays collector but I don't know how it went over in 1945. Add to these three several stories regarding the end of World War 2 and some terrific public service/recruiting ads and you will really appreciate how great The Green Hornet really was! 0 of 0 people found the following review helpful. Four Stars By JW Appel Green Hornet never dissapoints, though his second actor leaves something to be desired. 0 of 0 people found the following review helpful. Wrong disk! By L. Polsue Great stuff. I just want to note that in my set (possibly in all sets) Disk 4 was from the set FOG IN THE NIGHT instead of UNDERWORLD...

He hunts the biggest of all game! Public enemies who try to destroy our America! Britt Reid, millionaire bachelor and manager of his father's powerful newspaper, donned a disguise to smash rackets and expose crooks, spies and saboteurs who had managed to evade the long arm of the law. With his faithful sidekick Kato lurking in the shadows, a gas gun in his hand, a mask upon his face and The Black Beauty in the garage, he became The Green Hornet! Both police and the underworld sought this mysterious figure - the former to face trial for alleged crimes, and the latter to avenge the many defeats suffered at his hands. This box set features many broadcasts that have never before been available to the public. Heard for the first time since their original broadcast in 1944, you now have an opportunity to
