Very dissappointedBy eugene horganVery dissappointed with supplier, this book was ordered in error whilst browsing site, I was shocked to get invoice, and emailed straight away was told nothing could be done, I am 70 years old and do not need this book and cannot afford it. I didn't even go through a checkout process so goodness knows what happened. Will not be buying any more books online !!!!!!! I am now \$30 out of pocket for something I do not needDisgruntled customer2 of 3 people found the following review helpful. Glossy and pretty but lacks substance!By SylviastellI remember when the Guinness Book of World Records was more detailed with facts and interesting information. Of course, it is nowhere near as pretty as this addition. I ordered this book for somebody else. I briefly caught a glimpse at it but it's too pretty, colorful, and almost catered to a younger

child. Well, maybe that is what will attract the buyers is the colorfulness of it all. It's a hard cover, pretty, and ideal for a Christmas present if that's what it's for especially a younger child or for your library. The price is worth it here.0 of 0 people found the following review helpful. es en ingles y yo lo queria en espanolBy marlon ferrerayo ordene este porque que en la descripcion decia que era en espanol,y cuando lo recibo me doy cuenta que es en ingles cosa que me molesto mucho mucho.

Discover the most impressive world records with the latest edition from Guinness!
