Guinness World Records 2009, Gamer's EditionBy Victoria CarterReceived this book in a timely manner in great condition. The only thing I was a little disappointed about was that I was under the impression this would be a hardback copy, when in fact it is paperback. Perhaps this distinction could be made more obvious for future purchases. Other than than, a good order at a good price.1 of 2 people found the following review helpful. AWESOME!By Cory J.
