**Donald Mitchell : Gustav Mahler: The Early Years (v. 1)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Gustav Mahler: The Early Years (v. 1):

Donald Mitchell's well-known study of Mahler's early life and music is now available in paperback. On its first appearance in 1958, the book was greeted as a major advance in Mahler documentation and research. This edition was prepared with the help of Paul Banks and David Matthews, who, in a substantial critical appendix, correct and amplify Mitchell's classic text.

"Mitchell's biographical thoroughness, his scrupulousness with references, and his way of elucidating the various versions of a work are well known and widely admired." -- Times Literary Supplement "Mitchell's chronicle of Mahler's first 20 years succeeds in constructing a biography from 'fragmentary, incoherent, and often contradictory Mahler literature.' Buttressed by copious notes and an extensive appendix, Mitchell traces Mahler's formative experiences and creative efforts preceding the symphonies." -- Robert Riley, Los Angeles Times About the Author Donald Mitchell is chairman of the publishing house of Faber Music, Ltd. His books include Benjamin Britten (edited with Hans Keller); The Mozart Companion (edited with H.C. Robbins Landon); The Language of Modern Music; an annotated and revised edition of Alma Mahler's Memories and Letters; and Benjamin Britten, Pictures from

a Life, 1913-1976 (with John Evans).
