Greg Koch : Hal Leonard Country Guitar Method Book Online Audio(Hal Leonard Guitar Method) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Hal Leonard Country Guitar Method Book Online Audio(Hal Leonard Guitar Method):

5 of 5 people found the following review helpful. Very basic - not challenging for an experienced guitarist By John S.I was very disappointed that the book was so basic. I have been playing the guitar quite a while and thought this book would be similar to Fred Sokolow's Folk Guitar by Hal Leonard, where he chooses a number of basic to complex songs and builds on them throughout the book. A lot of this book is very, very basic music theory, and the music

theory lite lessons are not really tied to the music well. Most of the "songs" that are included are intros or a few bars long. There are some things that are longer, but on the whole I'd say that it was a regrettable purchase. I'm looking for another better country guitar instruction book if anyone has any suggestions.0 of 0 people found the following review helpful. Not useful for me.By Thomas H. AllenThe cd is very difficult to follow. The drum and other instruments on the cd overwhelm the chord strum you are supposed to be strumming along with. This has made it impossible for me to use on those tracks. The tracks which have only picking seem to be ok. When they made the cd they should have reduced the volume of the instruments you do not follow and made the instrument you are supposed to follow louder. So in summary if you are a player who is good enough to play with this cd I don't believe you would need this book.1 of 1 people found the following review helpful. Format has issuesBy Brian O.The information in the book is great, but the format is what is lacking. When reading on the kindle app on an ipad the music and tab is too small to read, and when reading on the kindle app on the computer the page layout is off and makes it difficult to follow along. Also, the audio files only work on the mobile app versions not on the desktop. If you are considering this title opt for the physical book.

(Guitar Method). This book uses real country songs to teach you the basics of rhythm and lead country guitar in the style of Chet Atkins, James Burton, Albert Lee, Merle Travis, and many others. Lessons include: Chords, Scales and Licks * Common Progressions and Riffs * Carter Style and Travis Picking * Steel Licks, String Bending and Vibrato * Standard Notation and Tablature * and much more! Songs include: Could I Have This Dance * Green Green Grass of Home * I Fall to Pieces * Satin Sheets * Yakety Sax * and more. This edition also includes 99 full-band tracks for demonstration and play along. The audio files are accessed online using the unique code inside each book and can be downloaded or streamed. They also include PLAYBACK+, a multi-functional audio player that allows you to slow down audio without changing pitch, set loop points, change keys, and pan left or right.
