Collins UK : Halliwell's Film Guide 2008 (Halliwell's the Movies That Matter) before purchasing it in order to gage whether or not it would be worth my time, and all praised Halliwell's Film Guide 2008 (Halliwell's the Movies That Matter):

Stars indicate the quality of the film. It's fascinating to read the reviews of critics--especially when they panned a film the public loved! My one objection to the book is its weight. It's the thickness of a major city phone book. I would like to see it divided into Volumes 1 and 2 for ease of use.0 of 0 people found the following review helpful. Five StarsBy Brent A. reference. By Scotland in Cleveland One of the last of the great film guides that are gone now, along with Ebert's and Maltin's. Love my computers and tablets, but cross referencing is always better with hardcopy. Really. Grab one if you see it.
