Lis Wiehl, April Henry : Hand of Fate (Triple Threat Series #2) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Hand of Fate (Triple Threat Series #2):

BoringBy Happy Nursing studentI thought the book was too convoluted with personal stories about the characters, with very little substance to the central story. The murder and how they discovered who did it was anti climactic. I read the entire thing because I really like Lis Weil, but I wouldn't read another.0 of 0 people found the following review helpful. Be sure to read!By Kindle CustomerJim Fate has a radio talk show called The Hand of Fate. It is widely popular in a negative way as well as a positive way. He receives a package on his break at the station while sitting in the booth alone. He opens it and a spray comes out and starts the process to end his life. He is not sure what it is and afraid it is Sarin gas he lets those outside the booth so they can escape in time. It creates a panic in the whole area around the station. The investigation into what happened and who sent it opens a whole can of worms as Allison Nicki go looking for answers. A very good read.1 of 1 people found the following review helpful. Exciting Plot and Great CharactersBy Librarian LauraWhen Jim Fate, a controversial talk show host, opens a package that contains poison, his death puts his town into a panic. As citizens fear a terrorist attack, Allison, Cassidy, and Nicole work together to find the person or group responsible for the death of Fate, who had made many enemies with his brash opinions. Will they find the person responsible before their own lives are in danger?While the mystery aspect of the novel was interesting and fast-paced, my favorite part of the book was the character development. The three strong, independent women who were introduced in book one show more growth in this book as readers find out what happened in Nicole's past to make her so wary of men, the reason for Cassidy's insecurities, and the strength of Allison's faith as she is tested with tragedy.The author's knowledge of the world of politics and media shines through again in this book. A funny addition to the book was the letters from popular radio hosts who thought the character of Jim Fate was based on them.Fans of suspense/murder mysteries will enjoy this

addition to the Triple Threat series. I definitely recommend reading them in order.

When the host of a popular radio talk show is murdered, the suspects almost outnumber his millions of listeners. Outspoken radio talk show host Jim Fate dies tragically when poisonous gas fills the studio while his polarizing show, *The Hand of Fate*, is on air. In the ensuing panic, police evacuate downtown Portland and the triple threat of FBI Special Agent Nicole Hedges, crime reporter Cassidy Shaw, and Federal Prosecutor Allison Pierce begin piecing together the madness, motive, and mystery of what just happened. And this time, it's personal since one of the women was secretly dating the host and has access to his home as well as possible evidence. In the days following Fate's murder, these three colleagues and friends confront a betrayal within the team while unearthing the not-so-public life of Jim Fate. Together, they must uncover the stunning truths of who killed him, how close the killer really is, and the twisted motive for this cold-blooded murder.

From Publishers Weekly Bestseller Wiehl and Henry's second Triple Threat novel (after *Face of Betrayal*) offers an exciting if familiar plot. When Jim Fate, a radio talk host in Portland, Ore., opens a padded envelope addressed to him shortly before going on air, he releases a poison gas, possibly sarin, that soon kills him. The package also contains a copy of *Talk Radio*, originally a play, later a movie, about the true-life murder of Denver talk show host Alan Berg. Caught in the subsequent investigation are three young professionals with links to law enforcement: federal prosecutor Allison Pierce, who's pregnant; FBI special agent Nicole Nic Hedges; and Cassidy Shaw, a TV crime reporter, who formed the Triple Threat Club after a high school reunion. Readers will identify with these very real women as they try to uncover Fate's killer, and each battles a personal demon: Allison her fear of miscarriage, Nic her fear of her daughter's criminal father, and Cassidy her prescription drug addiction.
