Djape : Hanjie Griddlers Nonograms: 100 picture puzzles before purchasing it in order to gage whether or not it would be worth my time, and all praised Hanjie Griddlers Nonograms: 100 picture puzzles:

8 of 8 people found the following review helpful. better late than neverBy intalI didn't realise that I hadn't reviewed this book....I have just finished a review for the following hankie/griddlers etc one, and finished the earlier one ages ago. I love these types of puzzles, and as usual, DJAPE has produced great quality, interesting puzzles with a variety of picture solutions. And on excellent quality paper, which makes a huge difference to me.1 of 1 people found the following review helpful. Five StarsBy Martha E. following review helpful. I am hooked on these puzzles! The binding makes it hard to work them, though. By Cynthia L. Powers I am always looking for this type of puzzles, I am hooked. And I do appreciate that they are all in manageable size, not super fill the page with tiny, little boxes for one puzzle. However, the binding on the book makes it hard to work the puzzles comfortably.

Volume 2 of the series, making it the 4th book with picture puzzles by Djape. All puzzles are brand new, previously unpublished Hanjie puzzles. Hanjie puzzles are known under many different names, but the game is always the same: it is your goal to paint the grid by following the clues and using logic as your main weapon. The painted grid reveals an image. This is why some call this kind of puzzles "paint doku" or "paint by numbers". The pictures in this book were designed by artists and turned into puzzles by Djape. There is also an introduction which explains the basic techniques used to solve the puzzles. Among them, the "cornering" technique is also explained. About half of the puzzles are 20x20, the rest are mainly 25x25 and 30x30, with a couple bigger ones up to 35x45.
