She is very happy with it. The large print makes it easy for her to read and doesn't strain her eyes.Also, the words aren't too long or difficult. She has a pile of puzzle books on her coffee table and we always try to bring her a new one when we visit. She is a bright lady, and says they help to keep her mind active. To be honest, I quite like doing them too!13 of 13 people found the following review helpful. Big disappointment - don't waste your money!By ecshor78This was a big disappointment. I ordered this for my Grandmother who still enjoys word searches at the age of 94. Each word search includes only EIGHT words. Seriously?!? What a joke! There are also only like 30 puzzles. Much better books out there! Don't waste your money on this one.12 of 12 people found the following review helpful. Good for older adults.By Katherine S.Kept my

mom busy for hours. Nice that answers follow each puzzle instead of being in the back of the book.
